SEE YOU AT CYBERTECH LATIN AMERICA IN PANAMA 2020

ORGANIZED BY

CYBERTECH

4TH ANNUAL CYBERTECH LATIN AMERICA IN PANAMA CONFERENCE AND EXHIBITION

As cyber threats continue to grow around the world, more and more companies, governments and individuals are looking for the most advanced security and technology solutions to stay ahead of the game. In an increasingly networked environment, global cooperation and knowledge-sharing is more important than ever.

Cybertech is connecting the world of cyber innovation to combat cyber risks with conferences and exhibitions around the world. Thousands of attendees around the world gather at these events, including the flagship Cybertech Tel-Aviv which attracted 18,000 guests in 2019.

Recognizing Panama as a regional and global leader in business, cyber, banking and innovation, Cybertech debuted in Panama for a 1-day conference and exhibition in March 2017. Following a hugely successful event in 2017, 2018 and 2019 Cybertech proudly announces our return to Panama for Cybertech Latin America 2020 at the City of Knowledge!

Held in conjunction with the Embassy of Israel in Panama, the City of Knowledge, SENACYT, AIG, and other regional partners, Cybertech Latin America 2019 enjoyed the participation of over 30 companies from around the region. Past keynote remarks include from Vice President of Panama H.E. Isabel Saint Malo de Alvarado, Stanley Motta, Chairman of the Board, Copa Holdings, Nadav Zafrir co-founder and Chief Executive Officer of Team8 and many more.

The unique value of Cybertech Latin America in Panama lies in the integration of academic, governmental, technological and commercial institutions: Cybertech LATAM 2020 will provide opportunities for learning from experts at the highest level, but also connections to the newest and most innovative young startups. Cybertech Latin America features exhibition space for startup companies alongside the conference sessions, including the unique Cybertech "Innovation Pavilion" for startup companies and the startup pitch contest.

Cybertech Latin America attendees will enjoy sessions from a variety of relevant topics, among them finsec, critical infrastructure, cyber at the national level and fostering entrepreneurship. Participants will include technicians, C-level, and executives from all vectors of industry and government. Most of all, Cybertech LATAM provides the stage for international networking for thought leaders, high-tech experts, entrepreneurs and decision-makers - all under one roof.

We look forward to seeing you at Cybertech Latin America 2020!
